Group No. Z   Project No. E

Project Name: Hostel Management System
PHASE-II

CONCEPTUAL DATABASE DESIGN

I. Changes Made:

1. We have added rating columns for the customers to give their inputs according to their experience at the hotel.

How you will update this table.

2. We will have records of the wanted people around, so no criminal can make our hotel as their hiding place.

3. We will have contacts of the best doctors in the proximity, needed in case of emergency.

4. We have added contacts of the tourist guides, transportation facilities in case needed.

II.
